ISLINGTON SOCIAL SERVICES

ISLINGTON

## Who are we?

We are part of Islington Council's Children and Families Services.

### We aim to:

- support parents and carers of children and young people with disabilities
- increase awareness, create routines and improve general parenting skills or techniques.

## What do we do?

Our service is tailored to the individual needs of the disabled child/young person in consultation with parents and carers. Each child/young person will have their own children's worker who will meet with them to agree the work to take place before it starts.

### We cover a range of tasks:

- we help children and young people to

access and actively participate in local activities such as youth clubs and independent living skills

- we build on children's self-confidence to help them realise their own individuality and self worth
- we help parents and carers to strengthen their skills and to develop new strategies.

### We aim to:

- be sensitive and supportive
- respond to the needs and views of service users
- help children and young people with disabilities to exercise rights to make choices in all aspects of their lives
- hold regular reviews for children and their families to see how things are progressing
- listen to feedback from children and their carers in order for the service to make changes for the better

- 
- encourage young people and carers to participate in their review meetings and to share responsibility in the decision making process.

## OUR service standards

**Each child and family will have an allocated worker**

**Written agreements will be drawn up in partnership with the service user**

**The service is provided within an anti-discriminatory framework**

**Consultation with young people and families within the review process and regular contact sessions**

**The service is child centred and we aim to meet the individual needs of the young person in a holistic way**

**We are committed to working in partnership with children and families and other professional care agencies.**
