

ISLINGTON

# Handout 1: Sustainability Legislation

## Legislation

The law can be confusing and some of it applies to you as suppliers and some of it applies to us as purchasers. This leaflet provides a summary of the categories relevant legislation falls into, and also lists local authority services to which environmental legislation applies. Further information can be gained from:

- Environment Agency legislation pages at [http://www.netregs.gov.uk/netregs/legislation/287972/652894/?version=1&lang=\\_e](http://www.netregs.gov.uk/netregs/legislation/287972/652894/?version=1&lang=_e)
- The Environmental Performance Team, who have access to a database of relevant legislation (when wider access to this database is available it will be publicised). Contact Zoë Hatherly on 0207 527 8031 or [zoe.hatherly@islington.gov.uk](mailto:zoe.hatherly@islington.gov.uk).

For more information on sustainability issues and practices, please refer to our 'Tips on sustainability for suppliers' guide.
