

The Sustainable Communities Act proposal form

Using this form

This form should be used to submit proposals under the Sustainable Communities Act to the LGA for short listing. Please complete all sections and then **email a copy to selector@lga.gov.uk**. These must be received by **July 31st 2009**, and you will receive confirmation that the form has been received.

Once submitted, information within this form may be made publicly available, unless you request for it to be kept private. We will treat information submitted sensitively. If you wish to attach any relevant presentations or graphs etc. please attach them separately in the email.

For questions regarding the act or the role of the Selector, please see our [FAQs](#). Any further questions can be directed to selector@lga.gov.uk.

Section 1: Proposal Summary

Proposing Authority

Under the terms of the Sustainable Communities Act, all proposals must be submitted by a local authority, or group of authorities, in England. Any group, organisation or individual may originate or develop a proposal. However all proposals will require Local Authority endorsement and submission to the Selector.

Parish councils and other organisations and agencies must seek support and formal endorsement from a proposing local authority (defined in the Act as county councils, district councils (including metropolitan, non metropolitan and unitary authorities), the common council of the city of London or the Council of the Isles of Scilly).

1.1 Lead Authority name

London Borough of Islington

1.2 Is this proposal submitted by this authority alone, or is it a joint proposal with other local authorities? (If joint please list authorities)

Submitted by London Borough of Islington

1.3 Who is the lead contact (s) in the authority for this proposal? Please provide email address and telephone number - *The LGA will direct any enquiries to this contact.*

Alanna Coombes
Alanna.coombes@islington.gov.uk
0207 527 3405

Supporting Organisations

Whilst proposals may only be submitted by a local authority, we acknowledge that local partners and outside organisations may wish to register support for the proposal. This is entirely voluntary.

1.4 Please provide details below of supporting organisations to your proposal. Please explain if the organisation is a charity, company, unincorporated association or other body. If a charity or company please provide registration numbers. If a local partnership please explain the relationship to the Local Strategic Partnership for the area.

N/A

Summary of your proposal

Please summarise your proposal. You may wish to include:

- The main elements of your proposal
- What issues your proposal is addressing and how it will promote the sustainability of the local community
- Who is affected by this proposal and how?
- Which public bodies might be affected?
- What are the main actions needed from Government?
- What do you expect this proposal to achieve?

1.5 Please enter your summary below (*word limit 1000 words*)

Although local authorities can choose how they spend council tax they can't decide how business rates collected in the borough are spent. This proposal is that local authorities should be able to keep and spend business rates collected in their area instead of the money going to the Government to be re-distributed.

Returning business rates to local control is the best single way to generate additional funds for local services and local projects and to promote the growth or regeneration of local areas. It would also strengthen the relationship between local businesses and councils.

.

Section 2: About your proposal

The form asks a set of questions to gather as much information as possible to allow for assessment and short-listing by the Selector. A word-limit is stated for each part of the form.

We appreciate that SCA proposals will vary in range and scope, and some questions will be more relevant than others for any one proposal. Please do not feel that answers are required for every questions or that the full word limit need be used in respect of each and every question box. If you are submitting a joint proposal, please include evidence for all areas.

Impact on sustainability *(word limit 2000 words)*

2.1 Please explain how your proposal promotes sustainability as defined locally (for example in your Sustainable Communities Strategy or LAA)

Retention of non-domestic rates will support the overall aims of the Community Strategy in terms of supporting additional action to reduce poverty, to promote aspiration and ensure that all residents have access to the services that they need, including the most vulnerable.

2.2 Over which geographic area will your proposal impact? (e.g. neighbourhood, town, city, sub-region)?

All local authority areas.

2.3 Who would benefit from your proposal?

Local residents and businesses.

2.4 What steps will you take to mitigate any adverse affects on sustainability from your proposal (if relevant)?

No adverse effects are expected as the proposal would have a positive impact on sustainability.

2.5 What project, activities and changes would take place in your area if your proposal was successful?

Resources could support regeneration schemes – one example is the re-development of Highbury corner, this area is desperately in need of investment to improve local transport, make it more pedestrian friendly and encourage local businesses into the area.

The extra funds could also be used to improve services and infrastructure for local residents such as green spaces or to fund additional services for vulnerable groups.

2.6 Does your proposal involve transfers of responsibilities between public bodies in the area? If so what are these? What budgetary implications might be involved?

No.

Local authorities are required to 'have regard' to a set of specific issues when deciding whether to support SCA proposals. These are matters listed in Schedule 1 of the Act, as passed by Parliament¹. It is worth noting that the issues listed in the Act are not supposed to be exhaustive and that ideas can cover anything that promotes the sustainability of the local area.

Many of these matters may not be relevant to any one proposal. If you are submitting a joint proposal please include evidence for all areas.

2.7 Please identify which, if any, of the issues authorities are required to have regard to, are relevant to this proposal and include any data and information which you feel would be helpful in the assessment process.

a) the provision of local services

The proposal would allow the council to increase the funds available to spend on local services thereby allowing the council to improve and expand the services we already provide.

b) the extent to which the volume and value of goods and services that are- i) offered for sale, ii) procured by public bodies, and are produced within 30 miles (or any lesser distance as may be specified by a local authority in respect of its area) of their place of sale of the boundary of the public body.

The proposal will mean the council has more money to pay for services which support local businesses.

c) the rate of increase in the growth and marketing of organic forms of food production and the local economy

N/A

d) measures to promote reasonable access by all local people to a supply of food is adequate in terms of both amount and nutritional value

N/A

e) the number of local jobs

Supporting local services, increasing economic activity and further interventions to support people back into work has the potential to increase the number of jobs in the borough.

f) measures to conserve energy and increase the quantity of energy supplies which are produced from sustainable sources within a 30 mile radius of the region in which they are consumed

¹ The Sustainable Communities Act is available here :
http://www.opsi.gov.uk/acts/acts2007/ukpga_20070023_en_1

N/A

- g) measure taken to reduce the level of road traffic including, but not restricted to, local public transport provision, measures to promote walking and cycling and measures to decrease the amount of product miles

Some additional resources would be used for re-generating parts of the borough, one example being Highbury Corner. The council is looking to improve local transport in the area and make it easier and safer for pedestrians and cyclists to use.

- h) the increase in social inclusion, including an increase in involvement in local democracy

N/A

- i) measures to increase mutual aid and other community projects

The funds gained by this proposal could be used to support local voluntary groups and community projects such as the gang prevention work the council is undertaking working alongside voluntary groups and the police to keep children out of gangs.

- j) measures designed to decrease emissions of greenhouse gases

N/A

- k) measures designed to increase community health and wellbeing

N/A

- l) planning policies which would assist with the purposes of this Act, including new arrangements for the provision of affordable housing

N/A

- m) measures to increase the use of local waste materials for the benefit of the community

N/A

Existing Barriers

(Please do not write more than 1000 words for 2.8 and 2.9)

2.8 What are the existing barriers to implementing your proposal?

Legislation..

2.9 What actions are needed by Government to make your proposal possible?

Amendment to the Local Government Finance legislation and the Council Tax and Non-Domestic Rates Regulations to allow councils to keep the non-domestic rates it collects from local firms.

Part 3: Local Authority Endorsement

This section should be completed by the proposing local authority. (Under the terms of the act this means a county council in England, a district council (including metropolitan, non metropolitan and unitary authorities), a London borough council, the Common Council of the City of London or the Council of the isles of Scilly)

3.1 Have consultation requirements been met? (500 words max)

Please confirm that your authority has met the statutory requirements for consultation on this proposal, via one or more panels of local representatives and persons from under-represented groups constituted in accordance with the Act and statutory guidance as set out in [Strong Safe and Prosperous Communities](#).

You may wish to describe who has been involved in discussions and development of the proposal (*e.g. council, local community organisations and residents groups, parish or town councils, local partnership bodies, local or national organisations, political parties, church and faith organisations, local businesses or chambers of commerce and others*).

If you have not done so already please give brief details of relevant panel meetings.

Please note if you are submitting a joint application please provide details of consultation and local support across all areas.

We told our local communities about the SCA through the Council website, our borough-wide resident magazine; residents' eBulletin; the Members' Bulletin; and directly to a range of community and third sector groups. This generated over 100 ideas to be put forward by residents, community groups as well as some staff members and councillors.

Council officers examined all the original proposals to sift out ones that appeared to go against existing council policy; where the council already has powers to take the action proposed; or where the proposal does not fall within the scope of the SCA for some other reason.

These proposals then went to a newly formed SCA panel to consider. This panel included residents from groups that councils have traditionally struggled to engage or forum members of such groups, including a blind resident, a resident with learning disabilities, and a resident (with an interpreter) who spoke English as a second language. The panel held its meeting on Monday 29 June and members looked in detail at a number of proposals each in some detail. Their comments and indications of interest or enthusiasm enabled us to sift further the proposals which were considered by, and agreed by, our Council's Executive.

3.2 What are the views from this consultation? You may wish to provide evidence of local support for your proposal? This might include petitions or letters of support from the public, local councillors, Members of Parliament, businesses, public bodies and agencies? Please describe this evidence below. *(The local authority submitting the proposal is likely to wish to review such material and to summarise its content. Onward submission to the Selector of all original documentation will not normally be required).*

The proposal for the council to keep the business rates collected in Islington was discussed by our SCA Panel. The panel was supportive of the proposal. Local Councillors also support the proposal which was agreed at an Executive meeting of the Council in July.

Proposals may include a change/transfer of functions from one person to another. If this is relevant to your proposal please confirm that the duties under clause 2, subsection 3 of the act (consulting with organisations affected by a change in location of a function) have been carried out.

3.3 Please give brief details of consultation with any affected organisations

N/A

3.4 Confirmation of council support

The process for formal endorsement is a matter for local discretion; however we anticipate that authorities will wish to gain political endorsement and clearance for the proposal through the relevant processes at local level. Please give details of how formal approval has been attained.

The proposals were agreed at the Council's Executive meeting on 9 July 2009.

3.5 General comments

This is an opportunity for the local authority to express any additional comments or views on the proposal: This may include: *(1500 words max)*

- the council's view of levels of local support for the proposal
- any local opposition or objections that the Selector should be aware of
- relevance of the proposal to the area's Sustainable Community Strategy and Local Area Agreement

- outcome of any local authority discussions with agencies or public bodies affected
- potential regional/national significance of the proposal, if replicated elsewhere
- any major resource implications for the council or its local partners
- any other factors influencing viability and achievability of the proposal

Part 4: Assessment by the Selector

SCA proposals will be assessed by the LGA as Selector. This will include consideration, short listing and negotiation with the Secretary of State via the LGA Selector panel made up of councillors from the four parties represented on the LGA

The LGA Selector Panel is committed to undertaking the role in a transparent manner; as such reasons for decisions on proposals will be made available.

There will be no appeals process in relation to decisions of the Selector Panel.

4.1 Do you confirm your agreement to abide by the outcome of the Selector's assessment and decision-making processes?

Yes

4.2 Would your council, accompanied by the originators of the proposal, wish to make a short verbal presentation to the Selector Panel, should this opportunity be available?

Yes

Thank you for completing this form.

Please email it to selector@lga.gov.uk by 31 July 2009.
