

# Air Quality Summit

**Official estimates suggest that 29,000 premature deaths in the UK in 2008 were attributable to long-term exposure to man made air pollution, which also made a smaller contribution in another 200,000 early deaths.**

COMEAP 2010.

**ISLINGTON**

**Camden**

Come to our summit and find out about the health effects of air pollution, how you can protect yourself, and what is being done to improve London's air quality.
