Proposal's Details

Code	Section	Details	Aggregation of proposals
BS\09\BP\ISL.01	Overview	The implementation of any schemes which have been identified as a part of the Joint Inspection Meeting (JIM) as part of the mini-WRIP (Whole Route Inspection Report) which was carried our in 2008-9. This may include modifying waiting and loading restrictions, on-street parking and junctions.	No
	Elements	This will include the detailed design, consultation and implementation of schemes such as junction improvements, adjusting existing traffic calming, modification to road markings, parking, traffic signals phasing etc.	
	Design Statement	London Borough of Islington is the contact and will undertake the detailed design, consultations and implementatiom with its Term Contractors.	
	Cons. / Comm. Approval Details	Details of any consultations and committee dates to be confirmed at a later date	
BS\09\BP\ISL.02	Overview	This scheme would help fund any meetings and progress any feasibility studies for proposals which would help buses reduce the impact of heavy traffic when the Emirate Stadium is in use. This scheme could include detailed design and consultation if required.	No
	Elements	Elements of this scheme are preparing and attending meetings. Carry out any feasibly studies of schemes which may arise from the discussions. If the outcome of the feasibility study shows it benefit buses then it could progress to detailed design.	
	Design Statement	London Borough of Islington is the contact and may undertake any study as a result of these meeting with bus operators and other affected parties.	
	Cons. / Comm. Approval Details	N/A	
BS\09\BP\ISL.03	Overview	The detailed design, consultation and implementation of schemes which have be progressed from the feasibility study carried out in 2008-9. A full public consultation would be carried out if required. The public consultation would include affected properties, elected members and stakeholders. The results of the public consultation would need Area Committee or Delegated Power Authority Approval if schemes were to be progressed. Schemes may require amendments to TMOs which will require a Statutory consultation and Delegated Authority Approval to progress.	No
	Elements	Detailed design, full public consultation would be carried out before the schemes are implemented. Changes to TMOs may be needed to be if some scheme are to be implemented.	
	Design Statement	London Borough of Islington is the contact and will undertake the detailed design, consultations and implementation with its Term Contractors.	
	Cons. / Comm. Approval Details	Details of any consultation and committee to be confirmed at a later date

Proposal's Details

Code	Section	Proposal's Details
BS\09\BP\ISL.10	Overview	We have received comments from bus operators who use Morris Place to access the Wells Terrace Bus Garage and they have said that vehicles parked at the junction of Morris Place and Stroud Green Road are causing an obstruction and delay to buses. They have requested to upgrade the waiting and loading at this location to assist bus journey times.
	Elements	Public consultation including statutory consultation and detailed design. As Stroud Green Road is a borough boundary, Haringey Council will also need to be consulted.
	Design Statement	London Borough of Islington is the contact and will undertake the detailed design, consultation and implementation with its Term Contractors.
	Cons. / Comm. Approval Details	Details of any consultation and committee to be confirmed at a later date
BS\09\BP\ISL.11	Overview	This feasibility study would investigate the proposal of providing a connecting bus link between the bus stations at Wells Terrace and Station Place. Although the bus stations are approximately ** m apart, the links could be further improved with a bus link to assist vulnerable pedestrians and passengers.
	Elements	The elements are to carrying out to a feasibility study which would include surveys etc. and liasing with affected parties such as London Buses, passenger and pedestrian groups. It sector Consultants could be used
	Design Statement	London Borough of Islington is the contact and may undertake this study.
	Cons. / Comm. Approval Details	N/A
BS\09\BP\ISL.12	Overview	This scheme is a part of the route 38 and has been approved in principle by Islington's area committee. The detailed design has been completed by consultants (Atkins). The allocation would fund the localised public and Statutory consultation. The results and of both the consultation will need to be approved by Delegated Powers Authority to progress to the implementation stage.
	Elements	The elements of this project include consultation, TMOs and works cost to implement the bus lane.
	Design Statement	London Borough of Islington is the contact and will undertake the detailed design, consultation and implementation with its Term Contractors.
	Cons. / Comm. Approval Details	Details of any consultation and committee to be confirmed at a later date
