Islington Council has responded to the effects of the coronavirus by compiling a directory of local businesses currently offering a remote ordering and/or home delivery service.

The aim is to support our local businesses, so they can continue to provide essential goods and services to local residents who are self isolating at home.

If you would like to be added to the list, please email businesssupport@islington.gov.uk with your business name, address and phone number. We will then check that businesses are complying with all the relevant regulations before putting them on the list.
