Hi

I would like to encourage the below proposal for Pentonville Prison.

"a heritage-led, predominantly residential scheme delivering a significant amount of genuinely affordable housing, and including appropriate provision of community uses, open space and an element of business use, may be acceptable."

Having lived next door to the prison for some time now, we have found the prison noisy and constant disturbance, for example noise of the prisoners, internal gates, the security vans lined up the street every morning, the recent noise protests, people shouting over the walls for hours at a time.

Many thanks
