Caretaker Services

Keeping your block clean

Estate Services and Caretakers are responsible for the daily maintenance and repair of the communal space at council managed blocks.

Estate blocks that have communal areas and environmental space will receive a caretaker service.

Caretakers will regularly complete cleaning and caretaking tasks to keep your block safe and clean places to live and visit.

Resident Responsibilities

To maintain standards of safety and cleanliness we ask that you and your visitors:-

- keep your block clean and tidy and do not drop litter in communal areas,
- ensure items are not thrown from windows balconies and landings,
- put your rubbish in your bin, or the communal bin and bulky or large items of waste are placed outside your block in the bulky waste area,
- sweep and clean the communal spaces directly outside and around your front door,
- keep landings free of any obstacles that block or delay the free and safe exit and entrance from your home to outside the block,
- tell the Estate Services or the Tenancy Management teams at your local area office about any of your neighbours who repeatedly break these standards.

On the next page, you can find duties your caretaker should complete at your block.

The frequencies listed are general indications for larger blocks and estates.

Cleaning frequencies may differ at blocks where there is a service level agreement in place or the block is situated on smaller estate.

If you have, any questions about your caretaker or estate service please contact:-
