Proposal: 30-40 ft tree to be felled in back garden of adjoining terrace (No 154 Packington street). This is the last terrace house in the block and its side and garden are directly on the boundary with Crudden Street. The tree is the only tree in the garden and is close to the common boundary wall with my property (ground floor flat,153 Packington Street). It is causing excessive shading and debris in my garden and appear responsible for undermining this party brick wall which is considerably distorted in the region of the tree (see attached photos and sketch). I have been in contact with the owner by telephone on several occasions recently. He agrees with having the tree felled providing I contribute half the cost. I consider this unreasonable as the tree is his property and so his responsibility, as is the damage to the party wall. If you agree that the tree can be felled I would be grateful, in view of this 'stalemate' if you could advice me on any course of action open to me, hopefully without resorting to legal action in light of prohibitive cost. For example you indicated to me in an earlier telephone conversation (with I believe Gavin Rees) that 'a public nuisance action' or the like, could be

Proposal: The proposal comprises a new 2 bedroom dwelling in the form of a rooftop pavilion with wrap around terrace and garden. This proposal has a slightly larger footprint to the previously approved 2 bedroom residential unit with associated rooftop amenity space, and would be constructed out of different materials. As the previously approved development, the existing interior stair core is to be extended to the existing roof level. Different to the previously approved development, the rear exterior metal fire escape is proposed to have a smaller spiral metal stair extension. The proposed pavilion is set back from the street frontages, has large expanses of floor to ceiling glass, with a framework in natural coloured render to match the concrete/render accents on the existing building. A wrap around terrace has planting troughs on Rosoman Street and Rosoman Place, with a garden on the southwest and rear northwest sides.
