**Proposal:** At the back of the building is our bathroom, which has a flat roof that we could access from the stairway that leads up to our bedroom. We propose creating a doorway that leads out onto a balcony. The balcony would be edged by brick at the base, matching the current wall, and then simple black or white railings. The roof area the balcony will be built on will measure roughly 230cm long and 225cm wide. I previously met with a planning officer to discuss this and he explained that a balcony would probably be considered acceptable in the area, given the balcony at the back of a property on Rotherfield Street and the property on the corner of Ecclesbourne Road and Halliford Street. We propose having a similar style to the one at the back of Rotherfield Street. He asked that I speak to my neighbours to check whether or not they had an issue with the proposition - I've done that and they have verbally approved of it.
