Charlton Place and Camden Passage

Improvements update

Changes to Experimental Traffic Order

Dear residents, businesses and market traders,

Charlton Place and Camden Passage have a unique character, with a proud history of independent stores, a strong sense of community and a wealth of heritage. We are committed to supporting independent businesses and sole traders who together make up the distinctive local economy of the area.

Based on the feedback we have received, we have taken the decision to implement a new set of proposals to deliver improvements across the area including:

'Local Access Only' zone to prevent through tffic on Charlton Place

This means that Charlton Place will be always open to any local resident or business, delivery driver, visitor or customer who wishes to access a business, trader or home in Charlton Place, Camden Passage, Shalford Court or Noble Yard, whilst helping to reduce traffic volumes.

Delivery drivers and taxis will still be directed to Charlton Place as long as they input a local address in their sat-navigation.

We will continue to monitor the traffic volumes and impacts to ensure the scheme is delivering on the expected positive impacts of the project.

Weight restriction above 3.5 tonnes (HGVs)

To reduce the risk of property damage and traffic danger will will implement a weight restriction for vehicles above 3.5 tonnes. We will permit local exemptions for business and residents where appropriate. We will be in touch directly with affected businesses about the exemption process.

Reviewing the proposed public seating

To support people with reduced mobility to access and visit Camden Passage, we are proposing to install two single seats to provide a resting point for older and disabled visitors. This will make Camden Passage and Charlton Place more inclusive.

Please note that seats will be bolted on the new pavement area and are easily removed if reports of antisocial behavior increases.

Raingardens in Charlton Place

Raingardens are a sustainable approach to managing rainwater runoff, helping to protect water resources and create a healthier and greener environment.

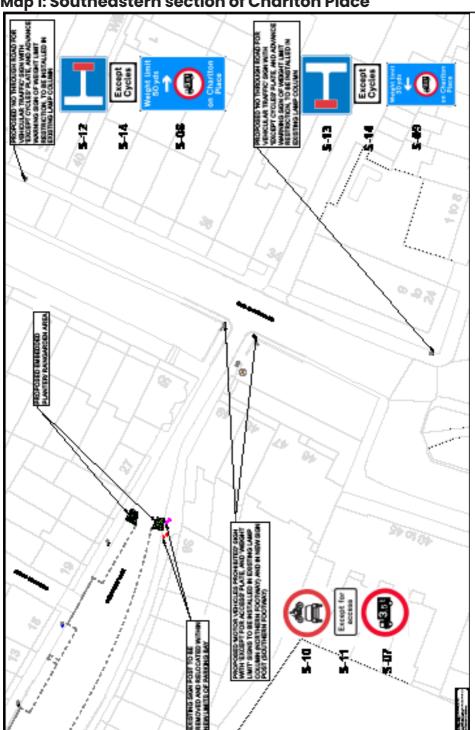

In the southeastern section of Charlton Place we will construct two raingardens from September 2023, during the new planting season.

We will provide further updates ahead the implementation as this will require at least 2-3 days for completion.

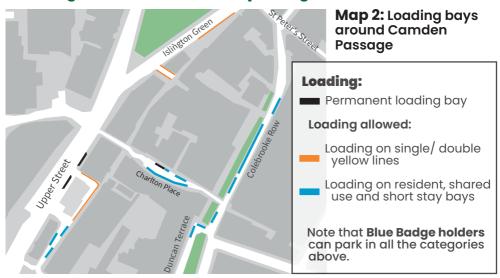

We would like to invite the local community for a planting day for which details will be communicated ahead of the event.

Object to ETO Process

The 'Local Access Only' zone and weight restriction for lorries above 3.5 tonnes will be introduced under an Experimental Traffic Order (ETO) trial. Once the ETO comes into force, there is a six-month period in which objections can be made. Any formal objection to a specific ETO must be in writing and must state the grounds on which it is made.

To make an objection please send it to us in writing between 4 August 2023 and 4 February 2024 by:

Email: Environment@islington.gov.uk or

Post: Public Realm, 1 Cottage Road, London, N7 8TP.

Please note that that any formal objection that is submitted may become a public document and could be published. We will continue to monitor Charlton Place and welcome feedback from local people.

Yours sincerely,

Councillor Rowena Champion

Executive Member for Environment, Air Quality and Transport
