Background

- 1.1 This schedule contains all the additional minor changes (known as modifications) to the Islington Site Allocations document. Minor Modifications do not materially affect the substance of the plan, its overall soundness or the submitted sustainability appraisal. The Minor Modifications generally relate to points of clarification, factual updates and typographical or grammatical errors. Main modifications are those which are considered necessary for soundness are provided in a separate list. The modifications highlighted are based on the version of the document that was submitted to the Planning Inspectorate for Examination in February 2020. This schedule consolidates pre-hearing modifications consulted on in March 2021, modifications proposed in matters statements as well as modifications made in response to actions arising from the examination hearings (September-October 2021).
- 1.2 This document is accompanied by schedules setting out relevant changes on the Strategic and Development Management Policies document and Bunhill and Clerkenwell Area Action Plan. An update to the Sustainability Appraisal/IIA and relevant changes to the Policies Map have also been published.

Format of changes

The following format has been used to set out what the changes are and distinguish between existing and new text
